

Grand Weekend News & Discoveries Brief

A fully consolidated, structural review generated dynamically across global networks.

Top Weekly Global Headlines (BBC)

1. Trump says Canada wants 'benefits' of being US state as Carney says countries in trade war

Weekly global updates curated directly from BBC news feeds.

2. Carney faces crucial test after walking away from Trump's deal

Weekly global updates curated directly from BBC news feeds.

3. Girl, 17, killed in Swedish sword attack, police say

Weekly global updates curated directly from BBC news feeds.

4. Iran-linked hackers behind cyber attack that shut down power plant, reports say

Weekly global updates curated directly from BBC news feeds.

5. The hotel booking mix-up that could free mushroom murderer

Weekly global updates curated directly from BBC news feeds.

6. Father leaves 7-year-old son alone on Mount Fuji to continue hike

Weekly global updates curated directly from BBC news feeds.

7. Moment humanoid robot beats Usain Bolt's 100m record

Weekly global updates curated directly from BBC news feeds.

8. Twelve of the best films of 2026 so far

Weekly global updates curated directly from BBC news feeds.

9. The sleep habits that can help you wake up without an alarm

Weekly global updates curated directly from BBC news feeds.

10. Where does Man Utd defeat rank among shock opening-game losses?

Weekly global updates curated directly from BBC news feeds.

11. Best Audio of the Week

Weekly global updates curated directly from BBC news feeds.

12. *The end of Harry and Meghan's American dream*

Weekly global updates curated directly from BBC news feeds.

13. *Canada says it has come under economic attack from the US*

Weekly global updates curated directly from BBC news feeds.

14. *Fame Under Fire: The Tupac Murder Trial*

Weekly global updates curated directly from BBC news feeds.

15. *A History of the United States in 100 Objects*

Weekly global updates curated directly from BBC news feeds.

16. *100 Objects #14: Basketball Sleeve*

Weekly global updates curated directly from BBC news feeds.

17. *'I created the duck cake from Bluey'*

Weekly global updates curated directly from BBC news feeds.

18. *Love Stories: My two husbands*

Weekly global updates curated directly from BBC news feeds.

19. *The WPBL and the future of women's baseball*

Weekly global updates curated directly from BBC news feeds.

20. *Celeste Saulo, WMO: Extreme weather is the new normal*

Weekly global updates curated directly from BBC news feeds.

Scientific Breakthroughs (Live Science)

27. 'The greatest unknown was how much energy would be released by the weapon': How scientists prepared for the Trinity nuclear test In this excerpt from "Trinity: An Illustrated History of the World's First Atomic Test," author Emily Seyl looks at the buildup to the 1945 test that changed history. She explores the huge effort to design experiments that would ultimately establish whether the gargantuan explosion in the middle of the desert was a success.

76. Physics & Mathematics *Richard Feynman's divisive 'reverse sprinkler' problem finally solved by modern lab experiments Scientists have pinned down why a sprinkler spins when it sucks in water instead of spraying it out — a problem that stumped Richard Feynman and has divided physicists for nearly a century. By Larissa G. Capella Published 27 July 26 3 Comments*
